### READY-TO-DRINK NITRO COFFEE

Smooth and refreshing, nitro coffee is on the rise for being one of the hottest ready-to-drink options. Caffeine cravings are satisfied quickly once you pop the tab

Featuring a widget in each can, our nitro products are super-charged and ready for action. The widget takes your cold brew or tea from ordinary to extraordinary with a burst of nitrogen upon opening. Experience a refreshing, smooth frothiness with every sip.

- Ready to drink
- Sugar-free
- Standard size recyclable cans
- Store at or below 40 degrees Fahrenheit
- Pack Size: 12/10.2 fl. oz.

According to recent studies, the global cold brew coffee market is expected to grow at a compound annual growth of 25.1% from 2019 to 2025 to reach \$1.63 billion by 2025. North American dominated the market with a share of 72.3% in 2019. Key factors include the increase of interest of ready-to-drink options, handcrafted consumables, and the spending power of millennials and their preference for coffee over other beverages in the U.S. and Canada.

*More than a drink, our nitro products make great use as ingredients in cocktails, sauces, or topping desserts like an ice cream float!*
